

## *Everything Is Terrible! Holiday Special 2012!* *The Cataclysmic Transformation!*

This holiday season, Everything Is Terrible!, the world famous psychedelic soldiers of found footage, return with another epic masterpiece! Over the last 5 years EIT! has built upon their classic Holiday Special, each year creating a more abominable video collage of everyone's least favorite time of the year! A millennium's worth of VHS memories of misplaced sentimentalities, fist fights over toys for tots, erotic Santas, Nazi elves, and an endless parade of singing kids will surely destroy us all! Will this holiday season be our last? Will our

Maya brothers and sisters of so many moons ago be correct in their prediction of doom? After all the dust settles, and our world as we know it is no more, will we have learned the true meaning of the season?

There is only one way to find the answers that we seek! Watch one more crappy holiday special!

This holiday season Everything Is Terrible! will be served on ice!

As always, EIT! will appear live to present the evening's festivities in all of their fur-covered glory! This time they promise to convert every stage into the tackiest winter wonderland imaginable with all the trimmings; puppets, sing-a-longs, candy, fake snow, and a visit from the big man himself! The word 'miraculous' falls short to describe the happenings of this Cataclysmic Transformation!

***The Onion AV Club** called EIT's first DVD a "postmodern masterwork."*

*"Bruce Conner for the information age... a psychedelic ingesting and spewing forth of a tacky and truly terrible American culture" - **LAWeekly***

*"Watching the film is like experiencing a fever dream while wide awake..." - **National Post***
